[[start page]]

[[underlined]] 1889 [[/underlined]]

Nov. 1[[overwritten]] 4 [[/overwritten]] 5 Left Nogales (Arizona) at 3 P.M.  
& reached Benson at 10.

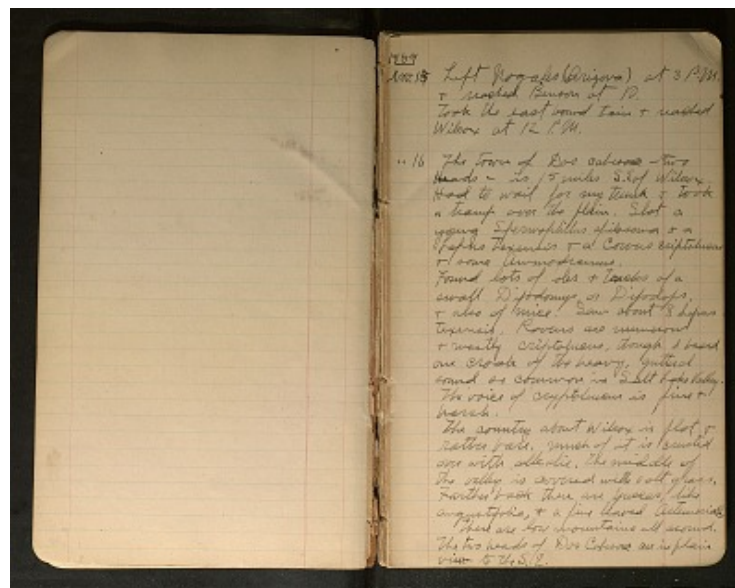

Took the east bound train & reached Wilcox at 12 P.M.

" [[ditto for: Nov.]] 16 The town of Dos Cabezas - Two Heads - is 15 miles S. E. of Wilcox. Had to wait for my trunk & took a tramp over the plain. Shot a young *Spermophilus spilosoma* & a *Lepus texensis* & a *Corvus cryptoleucus* & some *Ammodramus*.

Found lots of holes & tracks of a small *Dipodomys* or *Dipodops*, & also of mice. Saw about 8 *Lepus texensis*. Ravens are numerous & mostly *cryptoleucus*, though I heard one croak of the heavy, guttural sound so common in Salt Lake Valley. The voice of *cryptoleucus* is fine & harsh. The country about Wilcox is flat & rather bare, much of it is crusted over with alkali. The middle of the valley is covered with salt grass. Farther back there are *Yuccas*, like *angustifolia*, & a fine leaved *Artemesia*

[[circled]] \* 18 [[/circled]]

There are low mountains all around. The two heads of Dos Cabezas are in plain view to the S.E.

Bailey - Arizona, Minnesota, Texas, November 1889 - February 1890

## Smithsonian Institution

*Smithsonian Institution Archives*

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
