[[underlined]] Fairfield, Utah. [[/underlined]]

June 21, Stuffed The Woodchuck skins that I brought from Park City & then started out with gun & traps. Killed 6 *Tamias quadrivittatus* & 2 *Spizella breweri* & a Night Hawk. Made up these skins & went out again in P.M. & got a pretty little *Spermophile*, somewhat like *tereticaudus*. Saw some more & lots of holes & tracks. Set a few traps so as to have a supply of game for Monday. Saw a Coyote & a brown duck.

A warm day & not so windy.

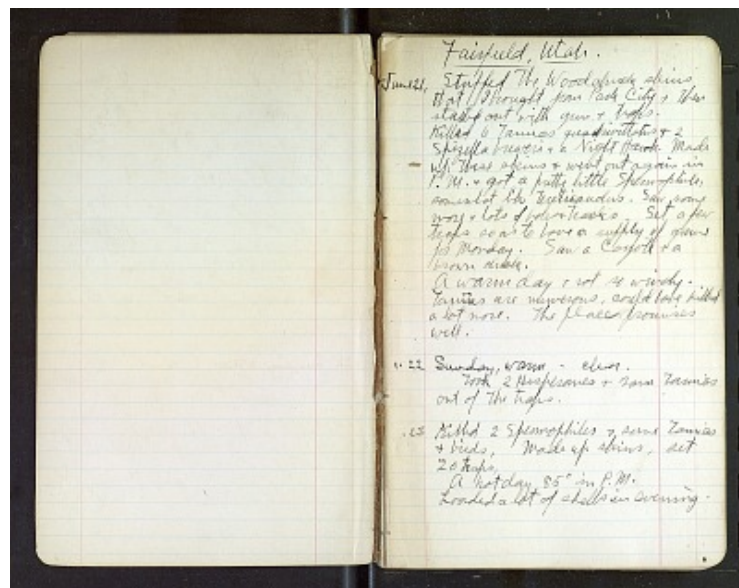

Tamias are numerous, could have killed a lot more. The place promises well.

" [[Ditto for: June]] 22 Sunday, warm - clear.
Took 2 *Hesperomys* & some *Tamias* out of the traps.

" [[Ditto for: June]] 23 Killed 2 *Spermophiles* & some *Tamias* & birds,
Made up skins, set 20 traps,

A hot day 85 [[degree symbol]] in P.M.

Loaded a lot of shells in evening.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
