Pyramid Lake

June 21 Caught one each of Perodipus & Dipodomys. Set a lot more traps for them. Have to set traps just at dark so the Spermophiles won't get in them. Got 2 Bats in evening. A warm day.

June 22 Caught a Dipodomys & 3 Perodipus & a Perognathus. Shot 2 Rabbits, 2 S. leucurus, 3 Hawks, some lizzards & a snake. Went down to lake. Killed 3 Bats. Cool & windy.

June 23 Caught a Dipodomys & some other things. Afternoon over to a cañon across on west side of valley but found very little of interest. Got some lizzards. Found the little wild peach & a Felugia & junipers.

June 24 Went down to the Lake (Pyramid Lake) got a boat of an Indian and went to the big island near middle of lake. It is about 10 miles from ~~no~~ south end of lake & at the nearest point about a mile from shore. Is rocky, about 500 feet high and half a mile across. An old shoreline 50 to 100 feet above lake forms

Smithsonian Institution Archives

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
