June 3, 1941

Dr. Waldo L. Schmitt
U. S. National Museum
Washington, D. C.

Dear Doctor Schmitt:

In reply to your letter of May 31, I would like to recommend additional items of apparatus as on the attached sheet. (Some of these merely increase the number of pieces of items already listed in my note of March 11).

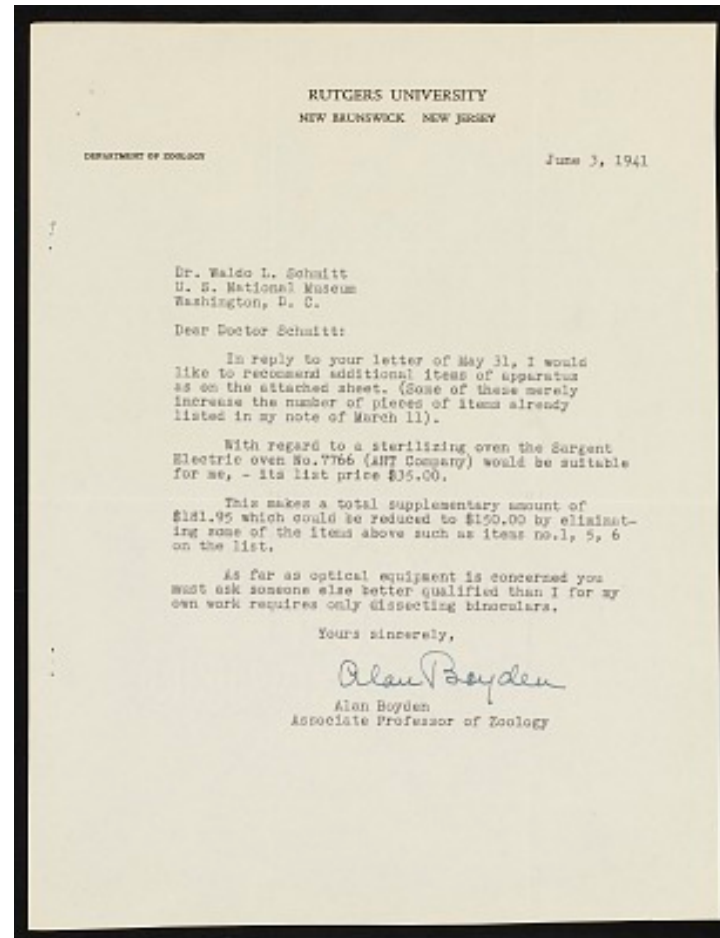

With regard to a sterilizing oven the Sargent Electric oven No.7766 (AHT Company) would be suitable for me, - its list price \$35.00.

This makes a total supplementary amount of \$181.95 which could be reduced to \$150.00 by eliminating some of the items above such as items no.1, 5, 6 on the list.

As far as optical equipment is concerned you must ask someone else better qualified than I for my own work requires only dissecting binoculars.

Yours sincerely,
[[signature]] Alan Boyden [[/signature]]

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
