The Revlon Research Group introduces two new ways of blushing (wet or dry) in one little case.

Revlon introduces a translucent natural look blush.
(When you apply it dry.)
Revlon introduces a deep dark blush.
(When you apply it wet.)
Revlon introduces Formula 2 Powder Cheekcolor.
Two totally different blushing effects, in the same case.
It wears and wears. Covers smoothly.
And conditions while it blushes.

Science made sensuous.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
