USNM Curators Annual Reports - Department of Reptiles: Annual Report, 1895 - 1896

Extracted on Apr-18-2024 03:57:59

The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

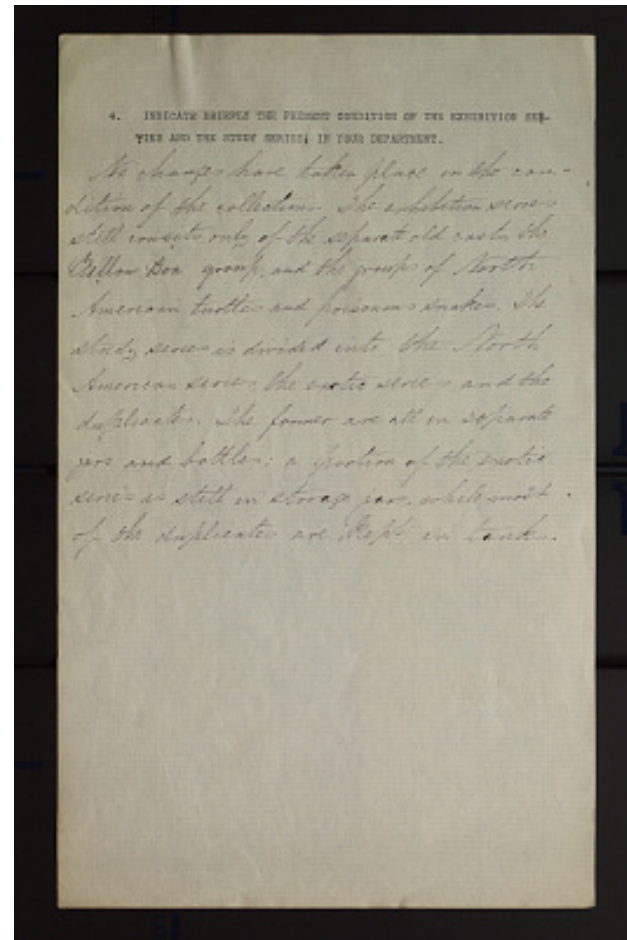

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian Institution Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian Institution Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian Institution Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian Institution Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

4. INDICATE BRIEFLY THE PRESENT CONDITION OF THE EXHIBITION SERIES AND THE STUDY SERIES, IN YOUR DEPARTMENT.

No changes have taken place in the condition of the collection. The exhibition series still consists only of the separate old casts, the Bellow Boa group, and the groups of North American turtles and poisonous snakes. The study series is divided into the North American series, the exotic series, and the duplicates. The former are all in separate jars and bottles; a portion of the exotic series is still in storage jars, while most of the duplicates are kept in tanks.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
