Devra Kleiman - Colonel notebook (infant golden lion tamarin), 1977

Extracted on Apr-02-2023 01:12:27

The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian Institution Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian Institution Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian Institution Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian Institution Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

11:00 0.7cc Similac
clinging response still poor.
Loud chirp when finished
+ did not want further food. used dinehardt nipple

1305 Begins chirping softly.

13:10 Fed 1.0 cc Similac
Single loud chirp when it was full. Used Dinehardt

16:00 1.0 cc Similac
stim. to urin + def.
used Dinehardt

1900 - .9 cc Similac w/ Dinhardt
nipple

2245 - 1.4 cc Similac - Deinhardt
nipple. Very eager to
eat. No vocalizations.

[[end page]]
[[start page]]

Still not clinging properly.

12 July 77 Day 3

0200 1.0 cc Similac

0745 1.1 cc Similac
Took milk well -
Had defecated + had
some feces stuck to
body. Looks okay.

[Note in Margin] = 9.65 cc [end of Note]

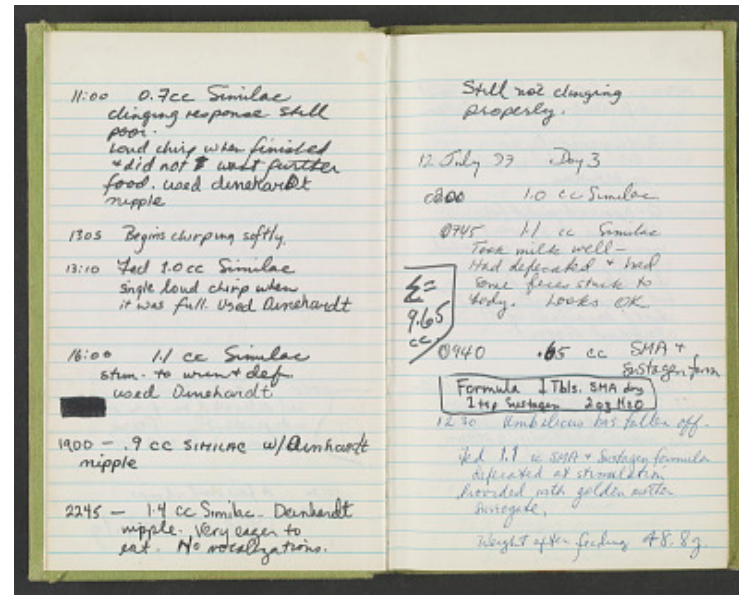

0940 .65 cc SMA +
Sustagen form

[[box]]
Formula 1 Tbls. SMA dry
1 tsp Sustagen 203 H₂O
[[/box]]

1230 Umbilicus has fallen off.

Fed 1.1 cc SMA & Sustagen formula
defecated at stimulation
provided with golden mother surrogate.

Weight after feeding 48.8 g.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
