6-9:00 - I worked 2nd growth area of mist net grid. Little eating until  
~7:00. Saw scattered WE vireos, Maggies, Redstarts, Least flycatchers.  
Saw several Leasts, way out in middle of low pastureland. Worked  
forest harder with little Luck.

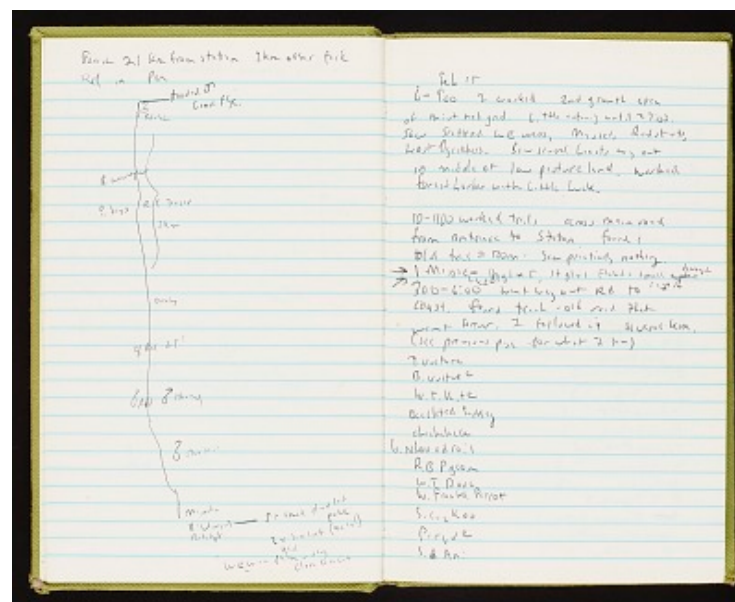

10-1100 worked trails, across main road from entrance to station. Found  
1 old trail = 500m. Saw practically nothing.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
