

Peenemünde Interviews Project: Karl Heimburg 11/9/1989 (Tape 3 of 3) A

Extracted on Mar-29-2024 03:02:42

The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the following terms.

- If sharing the material in personal and educational contexts, please cite the Smithsonian National Air and Space Museum Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian National Air and Space Museum Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian National Air and Space Museum Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian National Air and Space Museum Archives. See this project and other collections in the Smithsonian Transcription Center.

WEBVTT

00:05:35.000 --> 00:05:45.000

<i>Karl Heimberg</i>: Your fuel goes out of the de-airing line when you take the pressure off. You have the line to take the pressure off.

00:05:45.000 --> 00:05:54.000

<i>Karl Heimberg</i>: And when you have your scale plucked, they're over-fueled, and it run out the other side but, now comes a but,

00:05:54.000 --> 00:06:01.000

<i>Karl Heimberg</i>: there was a welding seam in this tube, and the welding seam had broken.

00:06:01.000 --> 00:06:06.000

<i>Karl Heimberg</i>: So, when they over-tanked, the fuel run back.

00:06:06.000 --> 00:06:08.000

<i>Michael Neufeld</i>: Is that alcohol that's running?

00:06:08.000 --> 00:06:10.000

<i>Michael Neufeld</i>: That's alcohol run back, and you could smell it.

00:06:10.000 --> 00:06:11.000

<i>Michael Neufeld</i>: Mmhmm.

00:06:11.000 --> 00:06:15.000

<i>Karl Heimberg</i>: [??] something badly, and they didn't care about.

00:06:15.000 --> 00:06:28.000

<i>Karl Heimberg</i>: So you knew that is highly dangerous for fire, and the first thing I did when I came there, I closed the door and said,

"That's an impossibility," they have first to correct that.

00:06:28.000 --> 00:06:35.000

<i>Karl Heimberg</i>: And we corrected it, and I could only say, "Okay, the other side you have to correct as well"

00:06:35.000 --> 00:06:39.000

<i>Karl Heimberg</i>: "You cannot leave it that way, and you have to watch it."

00:06:39.000 --> 00:06:45.000

<i>Karl Heimberg</i>: And after I was gone, after a month are so, that line broke again,

00:06:45.000 --> 00:06:46.000

<i>Michael Neufeld</i>: mmhmm

00:06:46.000 --> 00:06:51.000

<i>Karl Heimberg</i>: and that tank again came close to the wall, [].

00:06:51.000 --> 00:06:57.000

<i>Karl Heimberg</i>: When I left, I could only say that the facility is highly dangerous.

00:06:57.000 --> 00:07:12.000

<i>Karl Heimberg</i>: And then one day we got a call, you know the, uh, there was a big explosion and, uh, the whole crew has been killed.

00:07:12.000 --> 00:07:13.000

<i>Michael Neufeld</i>: Mmhmm.

00:07:13.000 --> 00:07:17.000

<i>Karl Heimberg</i>: So, I was sent there, and told you that story with--

00:07:17.000 --> 00:07:20.000

<i>Michael Neufeld</i>: With Oberth's daughter was killed in it.

00:07:20.000 --> 00:07:22.000

<i>Karl Heimberg</i>: ...got killed and,

00:07:22.000 --> 00:07:30.000

<i>Karl Heimberg</i>: I had to see them, but a new great group of people came there who built it up and could operate it again.

00:07:30.000 --> 00:07:46.463

<i>Karl Heimberg</i>: Okay, that was one, uh, part of, uh, my activity being called from Peenemünde but-

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
