**The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.**

The Smithsonian Institution (the "Smithsonian") provides the content on this website ([transcription.si.edu](https://transcription.si.edu)), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the National Museum of African American History and Culture as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the National Museum of African American History and Culture website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact National Museum of African American History and Culture or [transcribe@si.edu](mailto:transcribe@si.edu)

For more information on this project and related material, contact the National Museum of African American History and Culture. [See this project](#) and other collections in the Smithsonian Transcription Center.

[[?]]CHING OUT  
[[?]]RECTIONS.

technologies vital to tomorrow's information systems and services - including photonics, digital systems and software.

We'll use that technology to improve the efficiency of your business, with a complete line of communications and information management systems.

We'll also improve the quality of your life. With computer-like phones for your home that can perform a host of functions. And with the AT&T long distance network. It's the only network that can handle 23 million calls a day. Carrying voice, video, even sensory information, it is at your service any time, anywhere.

[[image]]

No company in America has a stronger commitment to customer satisfaction than the new AT&T. From the scientists and engineers who develop our reliable products and systems to the marketing and service people who help our customers get the most from our technology, we work for you. Just as we always have. Our century-old spirit of service is our competitive edge.

Tomorrow has come suddenly, but it hasn't taken us by surprise. We've been preparing for it for 107 years.

## Smithsonian Institution

*National Museum of African American History and Culture*

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
