Monday  
October 5  
Rain-Clear-Windy 65  
Up at 0655A. It rained part of the day but cleared up beautifully by noon. I printed pictures most of the day. No drill so I went down to hanger 7 and visited T/Sgt Donnie Choman in charge of link trainer. He was busy so I came back to the lab. I was supposed to take Stiles picture at 1830A but he never came around so I went to the show again and saw "My Gal Sal" for the third time. It's a swell picture. I made a small table lamp out of an old aerial film can and it works quite good. After the show I wrote a letter to HB. and home. The letter to H.B. was about 5 pages long and I really poured my heart out to her. I was a little romantic after that show. Read awhile and to bed by 0015A.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
