The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian National Air and Space Museum Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian National Air and Space Museum Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian National Air and Space Museum Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian National Air and Space Museum Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

TAILWINDS

EXTRA!! EXTRA!! EXPRESS TO NEW YORK

Washington to New York In 68 minutes. Shades of Paul Revere!! But it's a fact that the Ludington Express, which streaks northward through the sky twice a day, has been known to make it in less than 60. If you were traveling on the easy payment plan you would probably be at your destination before the first installment was due.

The graceful low-winged white Lockheed Orion, most recent addition to the already large number of planes in service, takes off with a full load of six passengers on practically every trip. A few moments in the air and Washington and Baltimore are both history, and they do say the "regulars" now start putting on their coats and hats when they spy old William Penn at Philadelphia. That saves time, for it's no more than the shake of a lamb's tail (and a darn little lamb at that) before you arrive at Newark.

If you can judge by the reservation sheet, that EXPRESS was just what the doctor ordered for the busy air-minded business man.

There are two Lockheeds- one in the morning and one on the afternoon run.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
