[cut off] from Lorain to Cedar Point, a distance of 50 miles.

Returning to Toledo from Cleveland with his mother, Mrs. Hattie Meyers Junkin, widow of two airmen and one of the two women members of the "Early Birds," an exclusive air organization, "Buck" took over the controls of the big Cessna from Parker Cramer, noted flier, while flying 2,800 feet above Lorain.

Speeding through the air at 110 miles an hour, "Buck" amazed both his mother and Cramer by handling the plane like a veteran.

To test the youngster's knowledge of airplane handling, Cramer put him through several turns and banks, "Buck" handling them like a veteran pilot. The trip from Cleveland to Toledo was made in 45 minutes.

It was "Buck's" first time at the controls of a plane in the air, the young airman having had considerable handling of a plane on the ground.

The youngster was given a royal greeting at Cleveland by a number of mail fliers, in addition to Major Berry, commander of the Cleveland airport, who was a flying instructor with "Buck's" father in the army air corps.

Parker Cramer, whose air life has been crowded with thrills, was frank to admit that "Buck" gave him an added thrill by handling the plane without any suggestions from him. Cramer plans to continue the boy's flying instructions personally, so pleased is he with "Buck's" ability to grasp the art of handling a plane.

MAN, HANDCUFF SOUGHT HERE

-

Tennessee Deputy Lets Prisoner Loose to Take a Bath.

-

Unless John W. Clark has succeeded in ridding himself of a handcuff it should not be difficult for Evert Speart, deputy sheriff of Sylana, Tenn., and the police to find him. When Speart saw him last on Saturday night Clark told him he was going to take a bath.

Believing that "cleanliness is next to godliness," Speart gladly gave permission to his prisoner to bathe. At the same time he did not intend to take any chances on letting him escape. Se[So] he removed the cuff off one hand and left both dangling from the other. All this happened in Clark's Indiana avenue domicile.

Clark, however, made good use of the opportunity of avoiding being taken back to Tennessee, where he is said to be wanted for a dry law violation. After locking the door of the bath room he did not linger. A window was too great a temptation to resist. With the handcuffs, he disappeared through it, as Speart learned when he missed hearing the splashing noise that usually goes with a bath.

Speart, wearing a big hat, big boots, big gun and everything, still is looking for his man Monday.

In Washington, the navy is exulting over the smashing of all speed records for standard naval seaplanes by Lieut. W.C. Tomlinson. Lieutenant Tomlinson drove his Wasp-motored Curtiss fighter over a 100-mile course to win the 10th Curtiss marine trophy race at an average speed of 175.01 miles an hour.

It is significant to note that only one serious accident was reported of almost innumerable flying activities of the week-end.

At Summit, N.J., Pilot Richard Perry is dead and two passengers are injured as the result of the crash of a "sightseeing" plane.

French Set Record

Two French army pilots, reports reveal, Monday were in possession of the world's speed record for 5,000 kilometers. The two, Commandants Weiss and Girier, flew for 26 hours at an average speed of 111.78 miles an hour.

At Dessau, Germany, the altitude record went by the boards when a Junkers monoplane rose to a height of 41,010 feet.

Announcement was made in Russia that Aug. 9 a Russian plane will leave Moscow on a 12,500-mile flight to New York by way of Siberia and Alaska.

In Washington, the army announced the appointment of 224 students to the army air corps field at San Antonio, Tex., and Riverside, Calif.

BAN ON PARKING ENFORCED HERE

-

16 Patrolmen Assigned to Enforcement Duty in Downtown Zone.

-

Five motorcycle patrolmen and 11 patrolmen on foot were assigned to the new no parking district in the downtown section Monday. It was estimated that more than 300 cars were tagged for violating the new ordinance.

Motorists who were accustomed to park their automobiles and rush to their offices and stores were forced to move their cars from the no parking district.

Traffic moved fast through the no parking section. Motorists who had

parked their automobiles while patrolmen were not around returned to find yellow tags.

The no parking district includes Summit street to Jackson street, to Huron street, to Adams street, to Erie street, to Jefferson avenue and thence back to Summit street. The no parking periods are from 7 until 9:30 A.M. and from 4:30 until 6 P.M.

Streets outside the no parking district were packed with automobiles.
