The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian National Air and Space Museum Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian National Air and Space Museum Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian National Air and Space Museum Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian National Air and Space Museum Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

San Diego, California. In December^[1] 1919, ^{retirement} Lt. ¹⁹¹⁹ Burns, U.S. Naval Reserve, flew a Curtiss Model MF flying boat, owned by the Sid Chaplain Aircraft Corporation of Los Angeles, in the 1919 Curtiss Marine Trophy event. On December 31st, he flew 650 miles in ~~9~~ ⁹ hours, ~~10~~ ¹⁰ minutes at San Pedro. This did not quite win the duration event but was indeed a fine day's effort.

In 1922 Burns was flying for Pacific Marine Airways on a service between Los Angeles and Catalina Island using a flying boat. In 1925 he carried passengers for the season at Avalon Bay, California, using a 3-place ^{place} Hispano-Suiza-powered^[1] Curtiss flying boat. In 1929 he became one of the founding members of the Early Birds.

In 1936 Burns was chief of the TWA West Coast pilots. At that time he was living in Glendale, California. In 1945 he moved to Banning, California, where he lived for the remainder of his life. In 1948 he was with the Air Carrier Branch of the Civil Aeronautics Administration where he remained until retirement. He passed away on May 19, 1970 in Banning hospital following an extended illness, at age 77. He was survived by his wife and a sister. Cremation followed his burial service. He was a World War I veteran and member of the Masonic Lodge.

Flying pioneer, Early Bird Arthur C. Burns made many valuable contributions to American aviation history. Plane builder, self-taught pilot, World War I naval aviator^[1] officer, barnstormer airline pilot and Federal Aviation Safety Inspector, it is claimed he had 12,000 hours of flying time.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
