served the Navy as Commander of a troop transport in the Pacific. In 1949 he became interested in the development of a small special automobile.

Following the war Martin made his home in Paramus, New Jersey where he passed away on February 28, 1956 at age 73. He was a member of the Early Birds, the Masonic Order and a Master Mate of the Mates and Pilots Association and had received many meritorious awards for his noteworthy lifetime achievements.

Early Bird, Flying Pioneer James V. Martin was an unusually gifted man of many occupations who had traveled and lived in many parts of the world. A man of vision, he conceived the basic ideas of several aviation features that have become standard on modern aircraft. Early aviator, plane builder and inventor, his accomplishments were legend and richly deserve a prominent place in aviation history.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
