## The River

A river flowed for many years before it won for itself the mystery of symbol. Sunsets showed their usual splendor in the water, and many clouds had passed brief minutes in it, and he had known all along of the commonplace reflections that could be found in Any river and this river at first was any river

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
