Smithsonian National Air and Space Museum Archives

New York Airways Collection - Publications, New York Academy of Sciences, 1959-1966

Extracted on Apr-23-2024 02:47:18

The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian National Air and Space Museum Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian National Air and Space Museum Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian National Air and Space Museum Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian National Air and Space Museum Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

versity, Atlanta, Ga.

"Studies of Growth Hormone by Micro-Complement Fixation" - A. H. Tashjian, Jr., Harvard School of Dental Medicine and Harvard Medical School, Boston, Mass.; L. Levine, Brandeis University, Waltham, Mass.; and A. E. Wilhelm, Emory University, Atlanta, Ga.

"Growth Hormone Releasing Factor (GRF). Physiological and Biochemical Studies with GRF Preparations of Bovine and Porcine Origin" - A. V. Schally, E. E. Müller, A. Arimura, T. Saito, C. Y. Bowers, Veterans Administration Hospital and Tulane University School of Medicine, New Orleans, La.; and S. L. Steelman, Merck Institute for Therapeutic Research, Rahway, N. J.

"Rapid Effects of Growth Hormone on Amino Acid Transport and Protein Synthesis" - J. L. Kostyo, Duke University Medical Center, Durham, N. C.

6:00 P.M.-
Cocktail Hour - Academy Building, 2 East 63rd Street, New York, N. Y.

7:00 P.M.-
Informal Subscription Dinner - Academy Building.

FRIDAY, OCTOBER 28, 1966

Session Chairman: M. Raben
Tufts University
Boston, Mass.

9:00 A.M.-
"The Anabolic Action of Growth Hormone" - A. Korner, University of Cambridge, Cambridge, England.

"Growth Hormone and the Metabolism of Carbohydrate and Lipid in Adipose Tissue" - H. M. Goodman, Harvard Medical School, Boston, Mass.

"The Effects of Growth Hormone on Carbohydrate and Lipid Metabolism in the Dog" - N. Altszuler, I. Rathgeb, B. Winkle and R. C. deBodo, New York University School of Medicine, New York, N. Y.; and R. Steele, Brookhaven National Laboratory, Upton, Long Island, N. Y.

"Noxious Stimuli and the Release of Growth Hormone in the Rhesus Monkey" - E. Knobil and V. Meyer, University of Pittsburgh School of Medicine, Pittsburgh, Pa.

"Normal and Abnormal Secretion of Growth Hormone" - S. M. Glick, Maimonides Hospital/Coney Island Division and State University of New York, Downstate Medical Center, Brooklyn, N. Y.; and J. Roth, National Institute of Arthritis and Metabolic Diseases, Bethesda, Md.

Smithsonian National Air and Space Museum Archives

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
