Smithsonian National Air and Space Museum Archives

New York Airways Collection - Publications, New York Academy of Sciences, 1959-1966

Extracted on Apr-19-2024 02:12:25

The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian National Air and Space Museum Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian National Air and Space Museum Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian National Air and Space Museum Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian National Air and Space Museum Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

PUBLICATION LIST

Art. Pages Price

- 27 318-354 On the Spodumene and its Alterations from the Granite-veins of Hampshire County, Mass. By Alexis A. Julien.
 28 355-362 On certain North American Species of Zonites, etc. By W. G. Binney.
 29 363-392 Lines of Discovery in the History of Ozone, with an Index of its Literature, and an Appendix upon the Literature of Peroxide of Hydrogen. Albert R. Leeds.
 Per Volume \$6.00

VOLUME II

(1880-1882)

(This volume is out of print)

- 1 1-18 Application of Organic Acids to the Examination of Minerals. By H. Carrington Bolton. (Second Paper.)
 2 19-21 The Place of Sadi Carnot in the History of Thermotics. By Robert H. Thurston.
 3 22-26 Upon the Production of Peroxide of Hydrogen, as well as of Oxygen, by the Action of Moist Phosphorus upon Air. By Albert R. Leeds.
 4 27-80 On the Geology of Hudson County, New Jersey. By Israel C. Russell.
 5 81-113 On Zinc Desilverization. By Thomas Egleston.
 6 115-116 Description of a New Species of Tridopsis from New Mexico. By Thomas Bland.
 7 117-126 On the Relation of the Flora and Fauna of Santa Cruz, West Indies. By Thomas Bland.
 8 127-128 Notes on *Macroceramus kieneri*, Pfr. and *M. pontificus* Gould. By Thomas Bland.
 9 129-139 On *Helix aspersa* in California, and the Geographical Distribution of Certain West American Land-snails, and Previous Errors Relating Thereto, etc. By Robert E. C. Stearns.
 10 140-160 The Life-History of *Spirifer laevis*, Hall; a Palaeontological Study. By Henry S. Williams.
 11 161-182 On the Geology of Richmond County, N. Y. By N. L. Britton.
 12 185-192 Outline of the Geology of the Northeastern West India Islands. By P. T. Cleve.
 13 193-244 Descriptions of New Species of Fossils from Ohio, with Remarks on Some of the Geological Formations in Which They Occur. By R. P. Whitfield.
 14 245-248 Description of a New Species of Swift of the Genus *Chaetura*, with Notes on Two Other Little-known Birds. By George N. Lawrence.
 15 249-266 The Parallel Drift-hills of Western New York. By Laurence Johnson.
 16 267-286 The Origin and Relations of the Carbon Minerals. By John S. Newberry.
 17 287-288 Descriptions of two New Species of Birds from Yucatan, of the Families Columbidae and Formicariidae. By George N. Lawrence.
 18 289-312 Fusion-Structures in Meteorites. By F. G. Weichmann.
 19 313-352 Index to the Literature of Electrolysis and its Applications, 1784-1880. By W. Walter Webb.
 20 353-355 Note Relating to a Newly-discovered Absolute Limit to Economical Expansion in Steam-engines. By Robert H. Thurston.
 21 355-356 Description of a New Species of Bird of the Family Cypselidae. By George N. Lawrence.
 22 357-367 The Origin of the Carbonaceous Matter in Bituminous

Smithsonian Institution

Smithsonian National Air and Space Museum Archives

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
