BLACK
EDUCATION
MYTHS AND
TRAGEDIES
[[image]]
by Thomas Sowell

"Part autobiography and part trenchant critique of 'black education' in America today, Thomas Sowell's book is brooding, brutally honest, controversial in its criticisms...This is an intimate glimpse of a black man's education - more often, Sowell believes, miseducation - in our society, and as autobiography it bears comparison with Malcolm X and Soul on Ice, though far more conservative in tone. As critique Sowell's writing abounds in sharply stated views on black studies programs and contains a blistering chapter on the Cornell disturbances a few years ago."
-*Publishers Weekly

"A timely, inclusive, forthright volume on a most significant topic. Sowell, a distinguished black economist who has taught at UCLA, Brandeis, and Cornell (where he was during the 1969 black-students-with-guns crisis), spends 40 percent of his book on the not necessarily typical but certainly thought-provoking details of his own education. He also offers practical new ideas for improving black education."
