SAVE MONEY
Examine Your Trees

Dead limbs and rot accumulate rapidly if not removed regularly. This accumulated rot can be pruned out inexpensively, compared to the cost of the cavity work or the loss of a tree, which result from neglecting to prune. Knowing the conditions of your trees will save you money. We will be glad to examine them for you, without expense or obligation on your part.

Smithsonian Institution

National Museum of the American Indian Archives Center

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
