Euptilotis. Yesterday I ran across a pair of this fine Trogon and after chasing them about for at least an hr. finally succeeded in getting one of them. Today I got another and found them feeding on wild cherries at Sta. Teresa. (Tuy de Tepic) I shot one that had a large caterpillar in its mouth.

Sept. 4th

Set traps near hda., and plan to leave tomorrow and return to ~~Coloctan~~ Coloctan.

Aphelocoma. Mr. N. saw one with a lizard in its bill.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
