The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian Institution Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian Institution Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian Institution Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian Institution Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

Valles,
on the open parts of the plain back of the town. One may go for miles
without seeing one and suddenly on entering a small patch of ground
which seems to be particularly suited to them sometimes six or eight
suddenly jump out and start off in various directions at the [[?]] moment.
They are very little hunted here and not at all wild.
Cobrius. Rather common on the open plains near Los Tomas.
Canis latrans. Said to not uncommon here and occasionally kill sheep.
Apr 22, Alta Mia,
Return here in the afternoon having secured a pair of the jackrabbits at
Los Tomas and a four other specimens.
Apr 23
See Mr. Nelson on train and make a short and unsuccessful search for
Meleagus in afternoon.
Apr. 24 Tampico.
Joined Mr. Nelson at Tampico.
Apr. 25-26. Remain at Tampico preparing to leave for trip to Jilila. San
Luis Polore.
Apr. 27 Valles San. Luis Pot.
Were surprised this morning by

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
