The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian Institution Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian Institution Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian Institution Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian Institution Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

Journal 2

March 17. Daylight as we came near St. Louis. Cold & clear, snow about one inch. Ice in river. Arrived St. Louis 7:30 A.M. Left for Kansas City 9 A.M. Warming up. snow disappearing on warm slopes. A few meadowlarks, flislar? & robins seen. Two bobwhites were very conspicuous standing on snow among weeds under R.R. fence. Stood very still as the train went by. Lots of ducks in Mo. R. but could not identify them. A few gulls seen. Lots of crows. One sparrow hawk. Sparrows in weeds not identified. Reached Kansas City at 5:15 & left at 6:20 on U.P. for Denver. Soon dark.

March 18. Woke upon open plains - nothing but snow in sight on all sides. apparently 3 or 4 inches deep - cold, wind blowing, air full of fine snow, blown up from surface, seems like cloud or fog.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
