Aug. 19/28 (Sunday)

Interlaken (beautiful)

In the morning we only strolled around the ~~city~~ town and made arrangements for a big private car for a drive in the afternoon. After lunch we went to Blue Lake, a very odd small lake which, being fed by a spring, is very clear & blue. The trees seen at the bottom from a boat are said to be petrified. From there we went to Kanderstag passing beautiful mountain scenery on the road. Past Tüne, where we had a fine, map-like view,

we went around the north side of the Lake of Tüne, thus completing a drive all around the lake. Driving along the lake in the twilight with the many opalescent shadows carving its waters, made a beautiful picture. We took with us a German couple who live in New Jersey. ~~The~~ "Mama" proved to be a great amusement with her frequent outbursts of ["Choost imachin, a toonel"] and also a story relating the sad "death of two motorcycles."

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
