For Prize Contest

Dear Sirs:

The most important thing that Burpee's seeds have done for me is to prove the value of guaranteed, tested seeds. This was impressed more forcibly by the failure of three important crops. The first was sorghum, the seed for which purchased elsewhere, was such a mixture of sorghum and broom corn as to give a result that was neither one nor the other and entirely unfit for use. The second, winter turf oats was killed outright by the first frost and the third alfalfa from which nothing resulted but a wonderful growth of wild mustard with

For Prize Contest.  
Dear Sirs: - 1924  
The most important thing  
that Burpee's seeds have done for  
me is to prove the value of guar-  
anteed, tested seeds. This was im-  
pressed more forcibly by the failure  
of three important crops. The first  
was sorghum, the seed for which  
purchased elsewhere, was such a  
mixture of sorghum and broom corn  
as to give a result that was neither  
one nor the other and entirely unfit  
for use. The second, winter turf oats  
was killed outright by the first  
frost and the third, alfalfa, from  
which nothing resulted but a won-  
derful growth of wild mustard with

## Smithsonian Institution

*Archives of American Gardens*

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
