AIRMAIL

Mr. Robert M. Grant
P.O. Box 98
Lakes Entrance
Victoria, Australia 3909

Dear Mr. Grant,

In reply to your letter of August 6, I enclose a note prepared by the Smithsonian Institution Scientific Event Alert Network regarding the Madagascar meteorite. No further information has come to hand since this note was prepared.

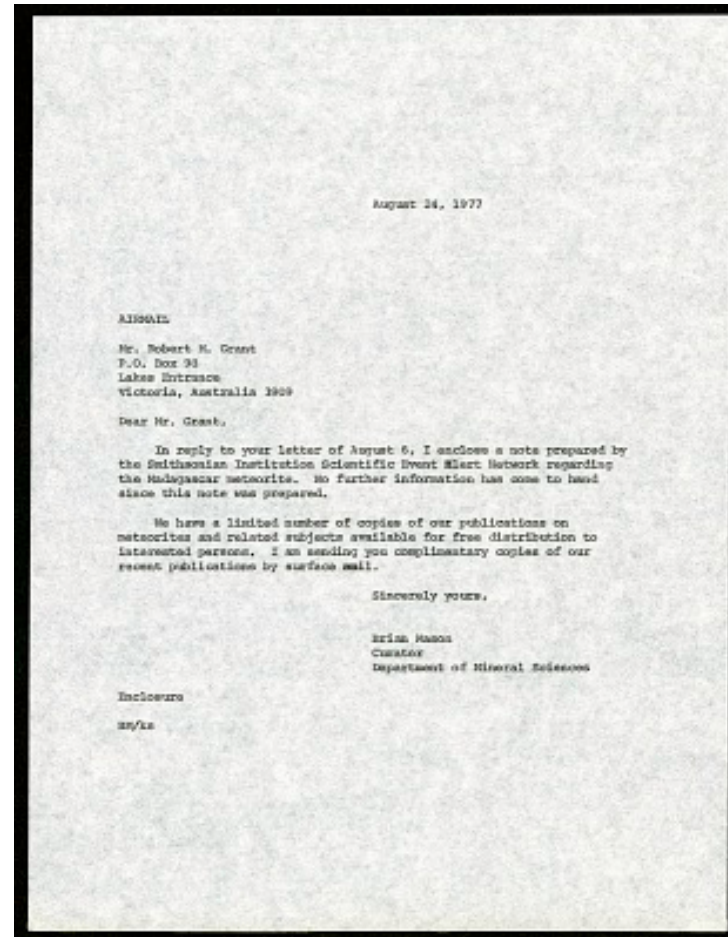

We have a limited number of copies of our publications on meteorites and related subjects available for free distribution to interested persons. I am sending you complimentary copies of our recent publications by surface mail.

Sincerely yours,

Brian Mason
Curator
Department of Mineral Sciences

Smithsonian Institution Archives

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
