U.S.A.

Dear Dr. Mason:

I wrote to you a letter on September 5, 1972 requesting for some meteorite samples. I am enclosing the letter in case it did not reach you. We are in pressing need for more meteorite samples right now.

I understand you have prepared a sample of All[[strikethrough]]a[[/strikethrough]]^[[e]]nde meteorite for distribution as a refrence standard. I wonder if you could send us 0.5 g of this material also.

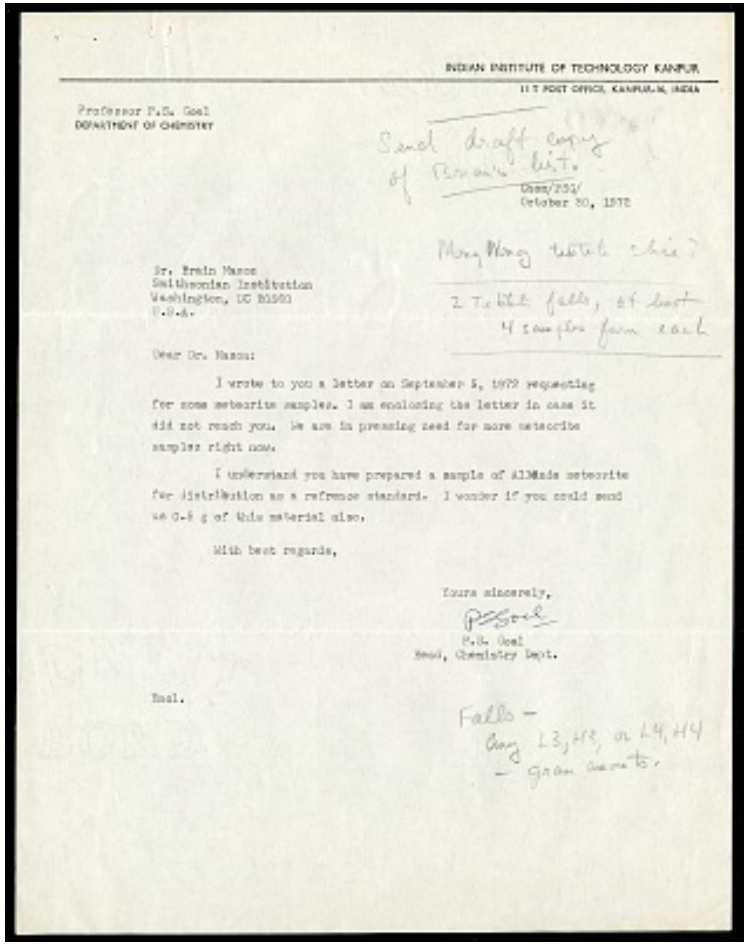

With best regards,

Yours sincerely,

^[[PS Goel]]

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities.Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
