Hyderabad 1, A.P., India

Dear Dr. Das Gupta:

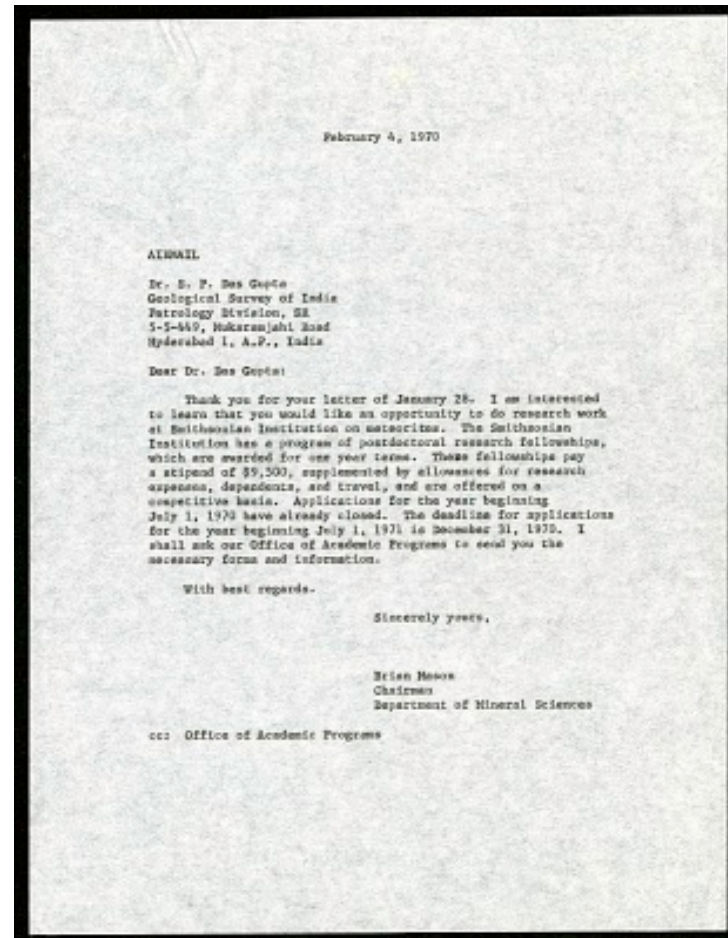

Thank you for your letter of January 28. I am interested to learn that you would like an opportunity to do research work at Smithsonian Institution on meteorites. The Smithsonian Institution has a program of postdoctoral research fellowships, which are awarded for one year terms. These fellowships pay a stipend of \$9,500, supplemented by allowances for research expenses, dependents, and travel, and are offered on a competitive basis. Applications for the year beginning July 1, 1970 have already closed. The deadline for applications for the year beginning July 1, 1971 is December 31, 1970. I shall ask our Office of Academic Programs to send you the necessary forms and information.

With best regards.

Sincerely yours,

Brian Mason
Chairman
Department of Mineral Sciences

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
