Trinidad 38.

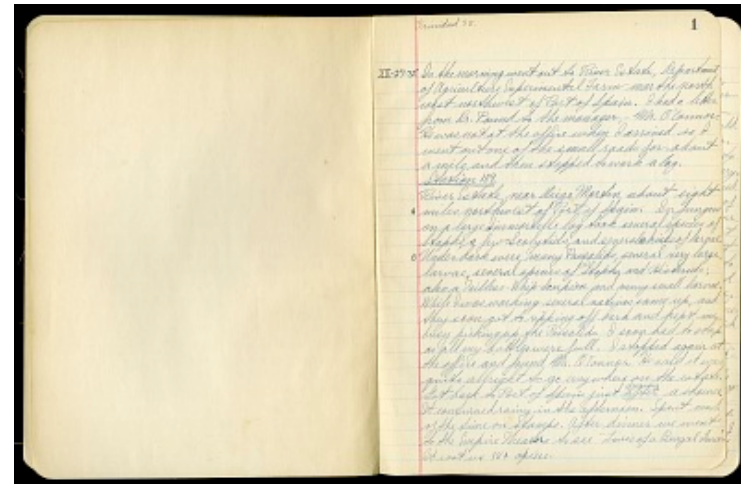

[[margin]] XII-27-35 [[/margin]] In the morning went out to Riner Estate, Department of Agriculture Experimental Farm near the north coast northwest of Port of Spain. I had a letter from Dr. Pound to the manager, - Mr. O'Connor. He was not at the office when I arrived so I went out one of the small roads for about a mile and then stopped to work a log.

[[underline]] Station 109. [[/underline]]

River Estate, near Diego Martin about eight

[[margin]] A [[margin]] miles northwest of Port of Spain. In fungus on a large Immortelle log took several species of Staphs, a few Scolytids, and several ~~s~~ kinds of larvae.

[[margin]] B [[margin]] Under bark were many Passalids, several very large larvae, several species of ~~32~~ Staphs, and Histerids. also a Tailless-Whip-Scorpion and many small larvae. While I was working several natives came up, and they soon got to ripping off bark and kept me busy picking up the Passalids. I soon had to stop as all my bottles were full. I stopped again at the office and found Mr. O'Connor. He said it was quite alright to go anywhere on the estate. Got back to Port of Spain just ~~after~~ during ~~a~~ shower. It continued rainy in the afternoon. Spent much of the time on stamps. After dinner we went to the Empire Theatre to see "Lives of a Bengal Lancer". It cost us 18¢ apiece.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
