**The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.**

The Smithsonian Institution (the "Smithsonian") provides the content on this website ([transcription.si.edu](https://transcription.si.edu)), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Smithsonian Institution Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian Institution Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian Institution Archives or [transcribe@si.edu](mailto:transcribe@si.edu)

For more information on this project and related material, contact the Smithsonian Institution Archives. [See this project](#) and other collections in the Smithsonian Transcription Center.

Cephalopoda [[circled]] 2 [[/circled]]  
September 28, 1982

A makes 50 ft dive off Watson Bay in morning. Sees some [[?]]. Nothing else. Then we try to night light in adjacent area ca. 6:30 - 7:30 pm. Technical difficulties. Neither fish nor squids.

September 29, 1982

Lizard Island

Going to try night lighting again. Near Bird Islet. Lots of minnows but no cephalopods.

September 30, 1982

Lizard Island

A films his Cuttle at North Point again. SAN.

No trace of Sepioteuthis australis

October 2, 1982

Lizard Island

It was too windy to go out yesterday.

Today the wind was still strong; but A did some filming of his Cuttle.

October 3, 1982

Lizard Island

A more of same Cuttle.

October 4, 1982

Lizard Island

Very windy today; but we go out anyhow

IT is too rough to work at North Point. So we go into adjacent Merm-

## Smithsonian Institution

*Smithsonian Institution Archives*

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
