The image shows a handwritten logbook page with columns for 'INSTRUMENT', 'DATE', and various astronomical data points. The page is numbered 14 and 15. The data is organized into two columns, with the left column containing instrument and date information, and the right column containing numerical data points. The handwriting is in cursive and the page is filled with entries.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
