The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the following terms.

- If sharing the material in personal and educational contexts, please cite the Smithsonian Institution Archives as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Smithsonian Institution Archives website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Smithsonian Institution Archives or transcribe@si.edu

For more information on this project and related material, contact the Smithsonian Institution Archives. See this project and other collections in the Smithsonian Transcription Center.

3.
us Several Chests fully Equipped; and our Surgeon Dr. Richard Knight. of the Presbyterian Hospital. N.Y. Undertook to gather and see that the specimens were looked after. David Nutt and one of the Brigus Crew and Warner Kent and Bross Lloyd and Stuart Miller gave him assistance from time to time.
[[strikethrough]] [[M?]] [[/strikethrough]] The Hydrographic office Navy Department and
the Bureau [[overwritten]] [[?]] [[/overwritten]] of Fisheries helped us with Thermometers and Sounding Wire; and [[Natuical?]] Instruments, and Books. in return we were to furnish the Hydrographic office Sea water Surface readings; and Ice data. from time to time this we did, over the Radio. And later they will receive a chart track of our route Showing ice and Bergs etc.
The Hungarian Consul General George de GhiKA. asked that we gather from the Crimson Cliffs of Cape York. Red Snow. Chlamydomonas Nivalas.
Clifton Foss our Radio Operator

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities.Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
