The Smithsonian Institution thanks all digital volunteers that transcribed and reviewed this material. Your work enriches Smithsonian collections, making them available to anyone with an interest in using them.

The Smithsonian Institution (the "Smithsonian") provides the content on this website (transcription.si.edu), other Smithsonian websites, and third-party sites on which it maintains a presence ("SI Websites") in support of its mission for the "increase and diffusion of knowledge." The Smithsonian invites visitors to use its online content for personal, educational and other non-commercial purposes. By using this website, you accept and agree to abide by the [following terms](#).

- If sharing the material in personal and educational contexts, please cite the Archives Center - NMAH as source of the content and the project title as provided at the top of the document. Include the accession number or collection name; when possible, link to the Archives Center - NMAH website.
- If you wish to use this material in a for-profit publication, exhibition, or online project, please contact Archives Center - NMAH or transcribe@si.edu

For more information on this project and related material, contact the Archives Center - NMAH. [See this project](#) and other collections in the Smithsonian Transcription Center.

Hedenström, who is the best authority, says after spending three years exploring the New Siberian Islands that It never freezes & even in Mar. little drift in is seen to the North. 73

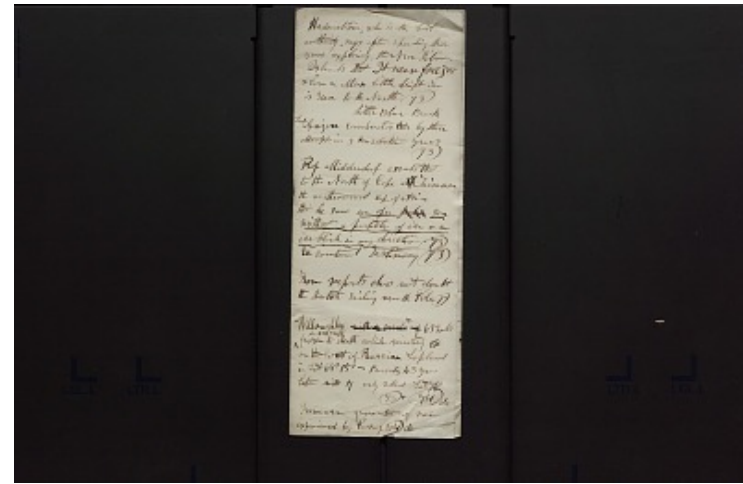

Little Blue Book

List Anjou corroborates this by three attempts in 3 consecutive years 73

Prof Middendorf asserts that to the North of Cape Taimuna? the northernmost cape of Asia that he saw an open ~~polar~~ sea without a particle of ice & no ice blink in any direction 73 see comment testimony 73

From reports does not doubt the Dutch sailing near the Pole 73

Willoughby ~~with vessels~~ & 65 souls ^ ~~in 2 vessels~~ frozen to death while wintering on the Coast of Russian Lapland in Lat 68° 15' - Barentz 43 years later with 17 only 2 died Lat. 76° 73 & 74 do Immense quantities of rain experienced by Purry 74 do

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
