Burpee's seeds give me very much pleasure because they grow so nice I would rather go out in my garden with any garden tools than go to a Matinee or a party I watch everyday for the little seeds to sprout and later for a new flower face to appear I would have lots of vegetables in my yard if it were large as it is small I enjoy every seed and plant that grows. Before the snow is gone my Crocus are up and the last thing in the fall are the Chrysanthemum next year I am going to grow Water Lillys Cannas Dalias and the Regal Lilly from seeds I find them all in your seed book I love to say to my friends, Yes I raised them all from Burpees seeds they always grow, When it is raining and I cant go out I sit down and study Burpees Catalog Thats why my Friends say to me You know all the flowers by name If I ever get a large yard I will have lots more including a real Lilly pool and early Hot bed to get and early start in spring.

Mrs E. Van Proyen
107 West 113 St. Chicago Ill.

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
