"What Burpee's Seeds have done for me"

Burpee's seeds that grow is a message that is important to the family man as it lessens the cost of living and it plays an important part around the old home, for you can guarantee that any seeds, plants or bulbs, etc that are Atlee Burpee's will germinate and grow to perfection. I have had considerable success with Burpee's seeds winning many prizes both for flowers and vegetables, and I have taken the best collection and best grown sweet peas. Flowers are a wonderful study from the time the seedlings appear until they mature, but to get the best results one has to study the plants, nursing and caring for them like a child, and it surely repays one for the beauty and perfume in the many varieties. Vegetables also play an important part in the home and Burpees's seeds can always be relied on to give best results. It is surprising what a lot of vegetables one can grow on a small lot, if they get the right seeds. My advice to prospective vegetable and flower growers is to get right in line and buy Burpee's seeds that grow and stock your cellar with vegetables.

Archives of American Gardens

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
