28.20 @ 6 P.M.

Very disagreeable day - Drizzling Rain all day - Foggy - Cleared up
some what at 5.30 PM. Sun came out for a few moments - Cloudy -
Commencing to blow -

Both Collieries idle - Vulcan run through 6 cars of Condemned Coal,
Egg Stove & Nut - First we have had for some time - Val claims it is on
account of "Buck Mtn" Vein coal, claiming that there is more coming out
just now - Not very much more than usual -

Received our Car allotments for to day and yesterday, yesterday - All
were loaded and we could be idle to day - Will be idle until next Monday
- Delano offered this arrangement to us of getting our cars for two days
on one day -

Harry Lattimore is getting the 3rd Lift at Buck Mountain, ready for the
Locomotive that he bought last week, through A. S Males & Co.

Beautiful day - Sun shining brightly -

Warmer this afternoon -

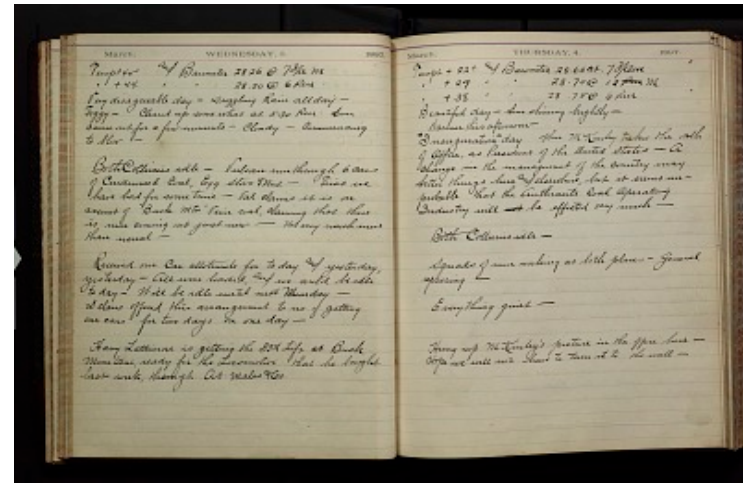

"Inauguration" day Wm McKinley takes the oath of Office, as President
of the United States - A change in the management of the country may
better things here and elsewhere, but it seems improbable that the
Anthracite Coal Operating Industry will ~~be effected very much~~ not

Both Collieries idle -

Squads of men working at both places - General repairing -

Everything quiet -

Hung up M Kinley's picture in the office here - Hope we will not have to
turn it to the wall -

Smithsonian Institution

National Museum of American History

The mission of the Smithsonian is the increase and diffusion of knowledge - shaping the future by preserving our heritage, discovering new knowledge, and sharing our resources with the world. Founded in 1846, the Smithsonian is the world's largest museum and research complex, consisting of 19 museums and galleries, the National Zoological Park, and nine research facilities. Become an active part of our mission through the Transcription Center. Together, we are discovering secrets hidden deep inside our collections that illuminate our history and our world.
